DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-2, 7-9 and 16-17, drawn to a composition comprising a copolymer having polyoxyalkylene grafts, classified in class 528, subclass 28
- II. Claims 3-4, 10-12 and 18-19, drawn to a composition comprising a copolymer having polyoxyalkylene blocks, classified in class 528, subclass 31.
- III. Claims 5-6, 13-15 and 20-21, drawn to a composition comprising a copolymer having both polyoxyalkylene grafts and polyoxyalkylene blocks, classified in class 528, subclass 25+.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I, Group II and Group III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects

Art Unit: 1712

(MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions of Group I, Group II and Group III have different effects because Group I is directed to a composition comprising a copolymer having polyoxyalkylene grafts, Group II is directed to a composition comprising a copolymer having both polyoxyalkylene blocks and Group III is directed to a composition comprising a copolymer having polyoxyalkylene grafts and polyoxyalkylene blocks.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be

accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kuo-Liang Peng whose telephone number is (571) 272-1091. The examiner can normally be reached on Monday-Friday from 8:30 AM to 5:00 PM.
